Only the features marked "✓" for the package purchased under this Order Summary constitute Included Features. Features marked "—" are not included and are supplied only upon an executed Feature/Data Scope Change Confirmation and, where applicable, an updated Order Summary. Marketing materials, proposals and website descriptions do not expand the scope of this order.

D. Product Specification and Artwork Status

- The Product Specification, Artwork, product text and warnings, NFC destination URL, call to action (CTA), Fresh Perk and offer rules, and integration configurations are approved by Customer's authorized representative by email confirmation. Customer's email confirmation constitutes Final Approval and is incorporated into the Agreement at the time of confirmation. FC will retain each such approval record by approver name, title, email address, the time the email was sent and the document version. Mass production may not begin before the Product Specification and Artwork approvals are complete.
